9:05 2. Access to Health Care Coverage

Most recent estimates peg Utah's uninsured rate at 11.9% (306,500 persons). During the last session, the Legislature appropriated \$19.9 million to the Children's Health Insurance Program to extend health care coverage to an additional 11,800 children and \$350,000 to the Governor's Office of Economic Development to develop a plan to increase the availability of health insurance to small business employees. At this meeting, the Committee will review the degree to which existing public programs, if expanded or otherwise modified, could reduce the uninsured rate. The Committee will also review the potential use of other options for increasing the availability of coverage.
